

FROM THE
 AUTHORITY
 BOARD AND STAFF!

**DORMONT
 PARK
 PROJECT
 PHASE 2**

Phase 2 of the Dormont Park Stormwater Project is scheduled to begin in Spring of 2026. This phase will be constructed in the area adjacent to Memorial Drive where the old wooden playground was demolished. Once this phase is completed, the site will be restored to support the “next generation” playground! The cost for this phase is estimated to be \$850,000.

Great News!

The Authority has now received a total of **\$1.82 million in grant awards** for stormwater projects that **total over \$4.2 million** for managing stormwater events, clean water mandates, and flood reduction!
Thank you to state Senator Wayne Fontana and state Representative Dan Miller for their support!

**TREES – NATURE’S OWN
 STORMWATER MANAGEMENT**

Our residential tree program in November was a huge success! The Authority worked with residents to plant 24 trees in front yards throughout the Borough. Many thanks to our residents who requested and agreed to care for their trees. And thank you also to our partners, Tree Pittsburgh, and Urban PlantScapes for doing such a terrific job with tree selection, locations, and the tree planting.
